## Assemblin Electrical strengthens service operations in Västra Götaland (Sweden) through acquisition

**Assemblin Electrical has acquired the service company Elservice Västra Götaland AB ("Elservice") with operations in Lidköping, an annual turnover of approximately SEK 30 million and 14 employees.**

Elservice was founded in 2014 and is today a stable electrical service company with headquarter in Lidköping and operations in Västra Götaland (Sweden). Elservice offers electrical service and installation projects. The customer base mostly consists of construction companies, property owners and private individuals. The company mainly performs work in connection with renovations and new constructions of private homes, renovations of commercial premises and work on public buildings. The company also offers installations of solar cells, which has been a growing area over the past year.

"Elservice is a fine and reputable service company with loyal customers. Their business will be a good complement to our Lidköping branch, which is more niched towards contracting and security assignments. Together, we get a strong offer in electrical and security technology for customers in and around Lidköping. It is with great pleasure that I welcome Elservice employees and customers to the Assemblin family," commented Fredrik Allthin, President and Business Area Manager at Assemblin Electrical.

"During our first ten years, we have built up a stable business, but in order to support our customers in a better way, and continue to develop our business, we need more resources and a larger network. Through Assemblin, we get a strong and secure owner, access to qualified support functions and a larger organization. We look forward to creating, together with Assemblin in Lidköping, the best and most complete electrical company in the region," commented Axel Ericsson, President at Elservice.

### **About Assemblin**

Assemblin is an end-to-end installation and service partner with operations in Sweden, Norway and Finland. We design, install and maintain technical systems and solutions for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. We make this possible through close local collaboration and are supported by a strong organisation. We have annual sales of SEK 14.6 billion and about 7,100 dedicated employees at some 100 locations in the Nordic region. Read more at [Assemblin.com](https://www.assemblin.com).
