Assemblin signs national service agreement for Vattenfall's nuclear power plants

Assemblin is delighted to announce the renewal of its framework agreement to supply maintenance, servicing and installation services to Forsmarks Kraftgrupp AB and Ringhals AB.

The nationwide agreement covers electrical, instrument and mechanical maintenance for the period 2022–2024.

The agreement will meet Vattenfall's need for maintenance services at its nuclear power plants in Forsmark and Ringhals, as well as other nuclear-related operations in the Nordic region, such as the decommissioning of nuclear power plants, management of radioactive waste and spent nuclear fuel and new electricity and heating production. This assignment places high demands on advanced technical expertise and delivery capacity.

“We are a long-standing supplier of technical installations and services to nuclear power plants and have enjoyed excellent collaborations with our customers. We are therefore delighted by the renewed trust placed in us to contribute to maintaining Sweden's energy supply,” says Jonas Magnusson, marketing director of Assemblin Electrical.

About Assemblin

Assemblin is an end-to-end installation and service partner with operations in Sweden, Norway and Finland. We design, install and maintain technical systems and solutions for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. We make this possible through close local collaboration and are supported by a strong organisation. We have annual sales of SEK 10 billion and about 6,300 dedicated employees at more than 100 locations in the Nordic region. Read more at assemblin.com.
