Assemblin to carry out installations in highly automated warehouse for ICA

Assemblin is carrying out electrical installations in ICA Fastigheter's new warehouse, logistics and office buildings in Kungsängen, northwest of Stockholm. The assignment, which covers power, lighting and telecom, has a total order value of SEK 55 million.

The warehouse building will be highly automated and robotised, with adaptations for e-commerce. It is 30,000 square metres in size, and the office building immediately adjacent is approximately 5,000 square metres. The new buildings are being constructed in the Brunna logistics district, which is strategically located close to European routes E18 and E4. A number of established service, commercial, warehouse and logistics companies are already located in Brunna.

“The challenge for us is primarily the short construction period. We began our assignment in early May, and our part of the project has to be finished in March 2021. There is a lot that has to fall into place over that time,” says Peter Bertlin, Regional Manager of Assemblin EI, Region East.

Assemblin has previously had an established partnership with ICA Fastigheter and is pleased to be entrusted once again in such a comprehensive project.

The work is being carried out by Assemblin EI in Västerås and Enköping. The client for the warehouse is Fastica Ornäs AB (ICA Fastigheter) and the client for the office building is MVB Öst AB, with ICA Fastigheter as the end customer.

About Assemblin

Assemblin is an end-to-end installation and service partner with operations in Sweden, Norway and Finland. We design, install and maintain technical systems for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. We make this possible through close local collaboration and are supported by a strong organisation. We have annual sales of SEK 10 billion and about 5,900 dedicated employees at more than 100 locations in the Nordic region. Read more at assemblin.com.
