## Assemblin wins a large installation contract in the Government Quarter in Oslo

**After participating in the planning phase, Assemblin Norway has also received the installation assignment for technical pipe systems in the basement level under the Government Quarter in Oslo. The assignment will be Assemblin Norway's largest heating and sanitation project and one of the Assemblin Group's ten largest ongoing projects.**

In March 2020, Assemblin entered into a collaboration agreement with the main contractor Veidekke for participation in the planning phase (phase 1) of the construction project "K201 Kjeller", which is a new basement level under the new Government Quarter. The project has now entered the production phase (phase 2), and Assemblin has been contracted to install qualified heating and sanitation systems that include industrial pipe systems, for which Assemblin uses its cutting-edge expertise in industrial services in Sarpsborg.

"The new Government Quarter is one of the largest Norwegian construction projects ever and we are very proud to be part of this development project. It places high demands on quality, safety, work environment safety and sustainability, which are also important focus areas for us at Assemblin," says Torkil Skancke Hansen, President and Head of the Assemblin Norway Business Area.

The project is expected to be completed during the winter of 2025.

More information about the new Government Quarter can be found here:

### **About Assemblin**

Assemblin is a complete installation and service partner with operations in Sweden, Norway and Finland. We design, install and maintain technical systems for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. Through close and local partnerships and a strong organisation we make that happen. We have annual sales of SEK 10 billion and about 6,300 dedicated employees at around 100 locations in the Nordic region. Find out more at [assemblin.com](http://assemblin.com).
