## Assemblin strengthens expertise in cooling technology through acquisitions in Luleå and Skellefteå

**Assemblin Ventilation has signed an agreement to acquire certain operations in northern Sweden from Indoor Energy through an asset deal. The operations have 8 employees and annual sales of about SEK 25 million and primarily offer services in cooling technology, a strategic growth area for Assemblin.**

The acquired operations in Luleå and Skellefteå (in northern Sweden) work with smaller projects and services predominantly within cooling technology but also in ventilation and technical property services. The acquired operations will be integrated with existing Assemblin operations in these locations.

"We are very pleased to be able to strengthen our position in northern Sweden, particularly within cooling technology, one of our growth areas. We are highly familiar with the operations from earlier partnerships and are impressed by their expertise," comments Håkan Ekvall, EVP and Business Area Manager at Assemblin Ventilation.

The transaction is scheduled to be closed preliminarily in early September.

"Our employees on site will now be part of a larger context with local colleagues, continuing to develop the operations this way. We are pleased to be able to transfer the operations in Luleå and Skellefteå to such a strong and stable owner as Assemblin. We already know each other well and look forward to our continued partnership. I am certain that this will benefit both customers and employees," says Åsa Wikensten, CEO of Indoor Energy.

### **About Assemblin**

Assemblin is an end-to-end installation and service partner with operations in Sweden and Norway. We design, install and maintain technical systems and solutions for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. We make this possible through close local collaboration in some 100 locations and are supported by a strong organisation. Read more at [assemblin.com](https://assemblin.com).

### **About Assemblin Caverion Group**

Assemblin Caverion Group is a leading technical service and installation provider in northern Europe. The Group comprises some 20,000 skilled employees in nine countries who share a passion for intelligent and sustainable solutions. We conduct installation services and provide technical services and solutions throughout the life cycle of the built environment, supporting customers whose demands in terms of energy-efficiency, sustainability and automation for buildings, infrastructure and industrial facilities are increasing. Assemblin Caverion Group was formed in April 2024 through the merger of Assemblin and Caverion. Our total annual sales amount to about SEK 42 billion/EUR 3.6 billion.
