Assemblin greenfields a new ventilation branch in Nyköping

Assemblin has for some time conducted ventilation assignments in Nyköping from its Norrköping office but will now greenfield a new ventilation branch in Nyköping with Carl Ferdinandsson as branch manager. The ventilation branch will collocate with Electrical and H&S in Nyköping.

– In Nyköping there are several local real estate companies and retail areas as well as an industrial area around Oxelösund. We strongly believe in the area and it feels exciting to greenfield operations and complement Assemblin's existing H&S and Electrical offering. Together we will be able to offer compelling solutions to the industry, constructors and property owners in the Nyköping area, comments Håkan Ekvall, President and Business Area Manager at Assemblin Ventilation.

About Assemblin

Assemblin is an end-to-end installation and service partner with operations in Sweden, Norway and Finland. We design, install and maintain technical systems and solutions for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. We make this possible through close local collaboration and are supported by a strong organisation. We have annual sales of SEK 10 billion and about 6,300 dedicated employees at more than 100 locations in the Nordic region. Read more at assemblin.com.
