Assemblin in Norway to install heating and sanitation technology at Gregers kvartal in Oslo

Assemblin in Norway has signed a contract with AF group for heating and sanitation installations at the Gregers kvartal housing project in Oslo's Løren neighbourhood. The contract is valued at NOK 66 million.

Gregers kvartal comprises 258 apartments divided between six buildings of six to eight storeys. In addition to residential apartments, the area will include a preschool, commercial premises, a parking garage and technical buildings with a total floor area of 33,000 m². Assemblin will also be responsible for planning the project.

Gregers kvartal is owned by Eiendomsplan and USBL. The project is to be carried out in three stages of construction, commencing in May 2022 for Assemblin's part. The project is scheduled for completion and hand-over in September 2024.

"We are generally experiencing a continued high level of demand in the Norwegian market. During the final quarter of 2021, we have filled our order book considerably, which makes us very pleased. The new assignments are well-suited to our project portfolio, and we now look forward to collaborating closely with our clients to create smart and sustainable properties adapted to the customers' wishes," says Torkil Skancke Hansen, President and Business Area Manager at Assemblin in Norway.

About Assemblin

Assemblin is an end-to-end installation and service partner with operations in Sweden, Norway and Finland. We design, install and maintain technical systems and solutions for air, water and energy. Our vision is to create smart and sustainable installations that make buildings work and people feel comfortable. We make this possible through close local collaboration and are supported by a strong organisation. We have annual sales of SEK 10 billion and about 6,300 dedicated employees at more than 100 locations in the Nordic region. Read more at assemblin.com.
